SUBJECT: Repair of Air-Cooled Tecumseh Engines Used as Outboard Powerheads

MODELS OR
TYPES AFFECTED: All Outboard Applications

Many thousands of Power Products engines have been used as the powerhead for air-cooled outboard engines by several manufacturers. Again this coming season, our manufacturing customers expect to sell additional thousands for the best selling year they have had to date.

To help your personnel recognize these units as being powered by Tecumseh Engines, we are listing the manufacturers' names, trade names and engine type numbers of the Tecumseh Engines as used as powerheads for outboard motors.
