

The Wetbike . . . rugged power, racy styling, split-second control . . . all the thrills of dirt biking and it rides on water.

Equipped with a 50 hp engine, the jet-powered Wetbike rides the surf with speed and agility. On calmer waters, the Wetbike is the perfect family recreation vehicle, cruising easily at any speed.

Wet and Wild

The Wetbike rides on front and rear skis and is powered by a specially designed water jet drive. It floats partially submerged when idling and, like a water skier, rises out of the water when the driver hits the gas. At 12 mph, the Wetbike is up and cruising and within seconds is speeding along. It carries one or two riders and is powerful enough to pull a water skier* on a single ski through a grueling slalom course.

The Only Bike on Water

The Wetbike is the only new water recreation vehicle that duplicates the sensation of riding a motorcycle. It responds instantly to the twist of the throttle, and the extendable front ski and handlebar steering give it the maneuverability and control that has, up until now, belonged only to land vehicles.

If the rider falls, the Wetbike turns off automatically, rights itself, and stands in the water until the rider remounts.

The Wetbike is versatile . . . on a full tank, the Wetbike can cruise for hours. It requires only a 2-foot draft to get up and a 3-inch draft while planing, so can be ridden in all types of water environments.

The Hottest Bike on Skis

The Wetbike . . . rugged power, racy styling, split-second control . . . all the thrills of dirt biking and it rides on water.

Equipped with a 65 hp engine, the jet-powered Wetbike rides the surf with speed and agility. On calmer waters, the Wetbike is the perfect family recreation vehicle, cruising easily at any speed.

Wet and Wild

The Wetbike rides on front and rear skis and is powered by a specially designed water jet drive. It floats partially submerged when idling and, like a water skier, rises out of the water when the driver hits the gas. At 10 mph, the Wetbike is up and cruising and within seconds is speeding along at 40 mph. It carries one or two riders and is powerful enough to pull a water skier on a single ski through a grueling slalom course.

The Only Bike on Water

The Wetbike is the only new water recreation vehicle that duplicates the sensation of riding a motorcycle. It responds instantly to the twist of the throttle, and the extendable front ski and handlebar steering give it the maneuverability and control that has, up until now, belonged only to land vehicles.

The Wetbike is safe . . . the hull has been streamlined so there are no protruding corners and there is no dangerous propeller.

The Wetbike is unsinkable . . . if the rider falls, the Wetbike turns off automatically, rights itself, and stands in the water until the rider remounts.

The Wetbike is versatile . . . on a full tank, the Wetbike can cruise for over two hours. It requires only a 2-foot draft to get up and a 3-inch draft while planing, so can be ridden in all types of water environments.

Take It On With A Wetbike.

WETBIKE®

Sea Crest, Inc. *"take it on"*
119 N.E. First Street
Little Falls, MN 56345

When
You Take It On...

It's there. The bright sun. The warm breeze. The challenge of the open water. Your spirit soars,

and you know you're ready to take it on, free of tow ropes, without the restrictions of a boat. Just you and the machine. You take it on with a Wetbike.

It's for you. It's for your family. Everyone enjoys life. Breaking waves at speeds up to 35 mph. Or taking a leisurely lake cruise. Whatever the choice, Wetbike enhances the way life was meant to be lived—for the moment.

The Wetbike is a challenge that's unique to itself. Like a powerful machine, the Wetbike dares you to ride the crest. Go into deep blue waters. Hit the waves. And come back to do it again and again.

The Wetbike responds to every family member who likes the water. It's for the man or woman who enjoys a challenge and craves adventure.

And it's for the person who just likes being out there. You'll know it's for you when you take your first ride. When you get your first sense of real freedom as you ride the waves, closer to the water and more in control than you've ever been before.

Designed for true performance. Designed for family fun.

The Wetbike's 50 hp Jet Drive brings you to the water's surface fast. You're backed by 723 cc's of factory-tested jet stream power, plus reliable Mikuni

Fuel efficient reed valves and reliable Mikuni carburetors

Comfortable padded seat is comfortable all day long

The eight gallon gas tank gives you loads of time to have loads of fun.

Spring loaded throttle. Let up and it turns off.

Tether safety switch; engine automatically stops.

Sleek hull design, molded from rugged fiberglass for long-lasting beauty.

Jet pump drive with improved power and performance

Tested and proven 50 hp. outboard powerhead.

CD ignition for maximum spark, minimum maintenance

The constant-on engine blower keeps compartment free of fumes.

Front ski four-bar linkage makes turning easy.

The front ski is designed for maximum control.

Hull length 7.8 feet
Width 2.1 feet
Height 3.6 feet
Stationary draft 2.6 feet
Weight 350 pounds

Gas Capacity 8.0 U.S. gallons
Maximum Speed . . . Over 30 mph
Fuel Type Oil and gas mixture
(ratio 50:1)
Flotation Capacity 2 Adults

Engine Type Water cooled
2 cylinder, 50 hp, two cycle 723cc
Constant-on bilge pump and blower.

Wetbike meets all applicable U.S. Coast Guard requirements. Certified by B.I.A. (Boating Industry Association). Specifications and product subject to change without notice.

carbs, super-efficient reed valves and low-maintenance CD ignition. More than enough power to drive you and a passenger through the deepest water. You can even pull a water skier.

Handle the Wetbike like you would any machine designed for true sporting. Gently but firmly. Lean into turns, respond to the feel and the Wetbike responds right back. When you want to stop, simply ease up on the throttle and the

even where boats can't. It trailers and unloads just like a boat or wheels across the sand on a two-

fun—pure riding pleasure along with many exciting and daring challenges.

The challenge and adventure is yours. Take It On With A Wetbike.

Wetbike settles easily into the water.

Don't worry about taking a spill. The Wetbike automatically comes to a complete stop and waits for you to climb aboard, ready to challenge the waves once more.

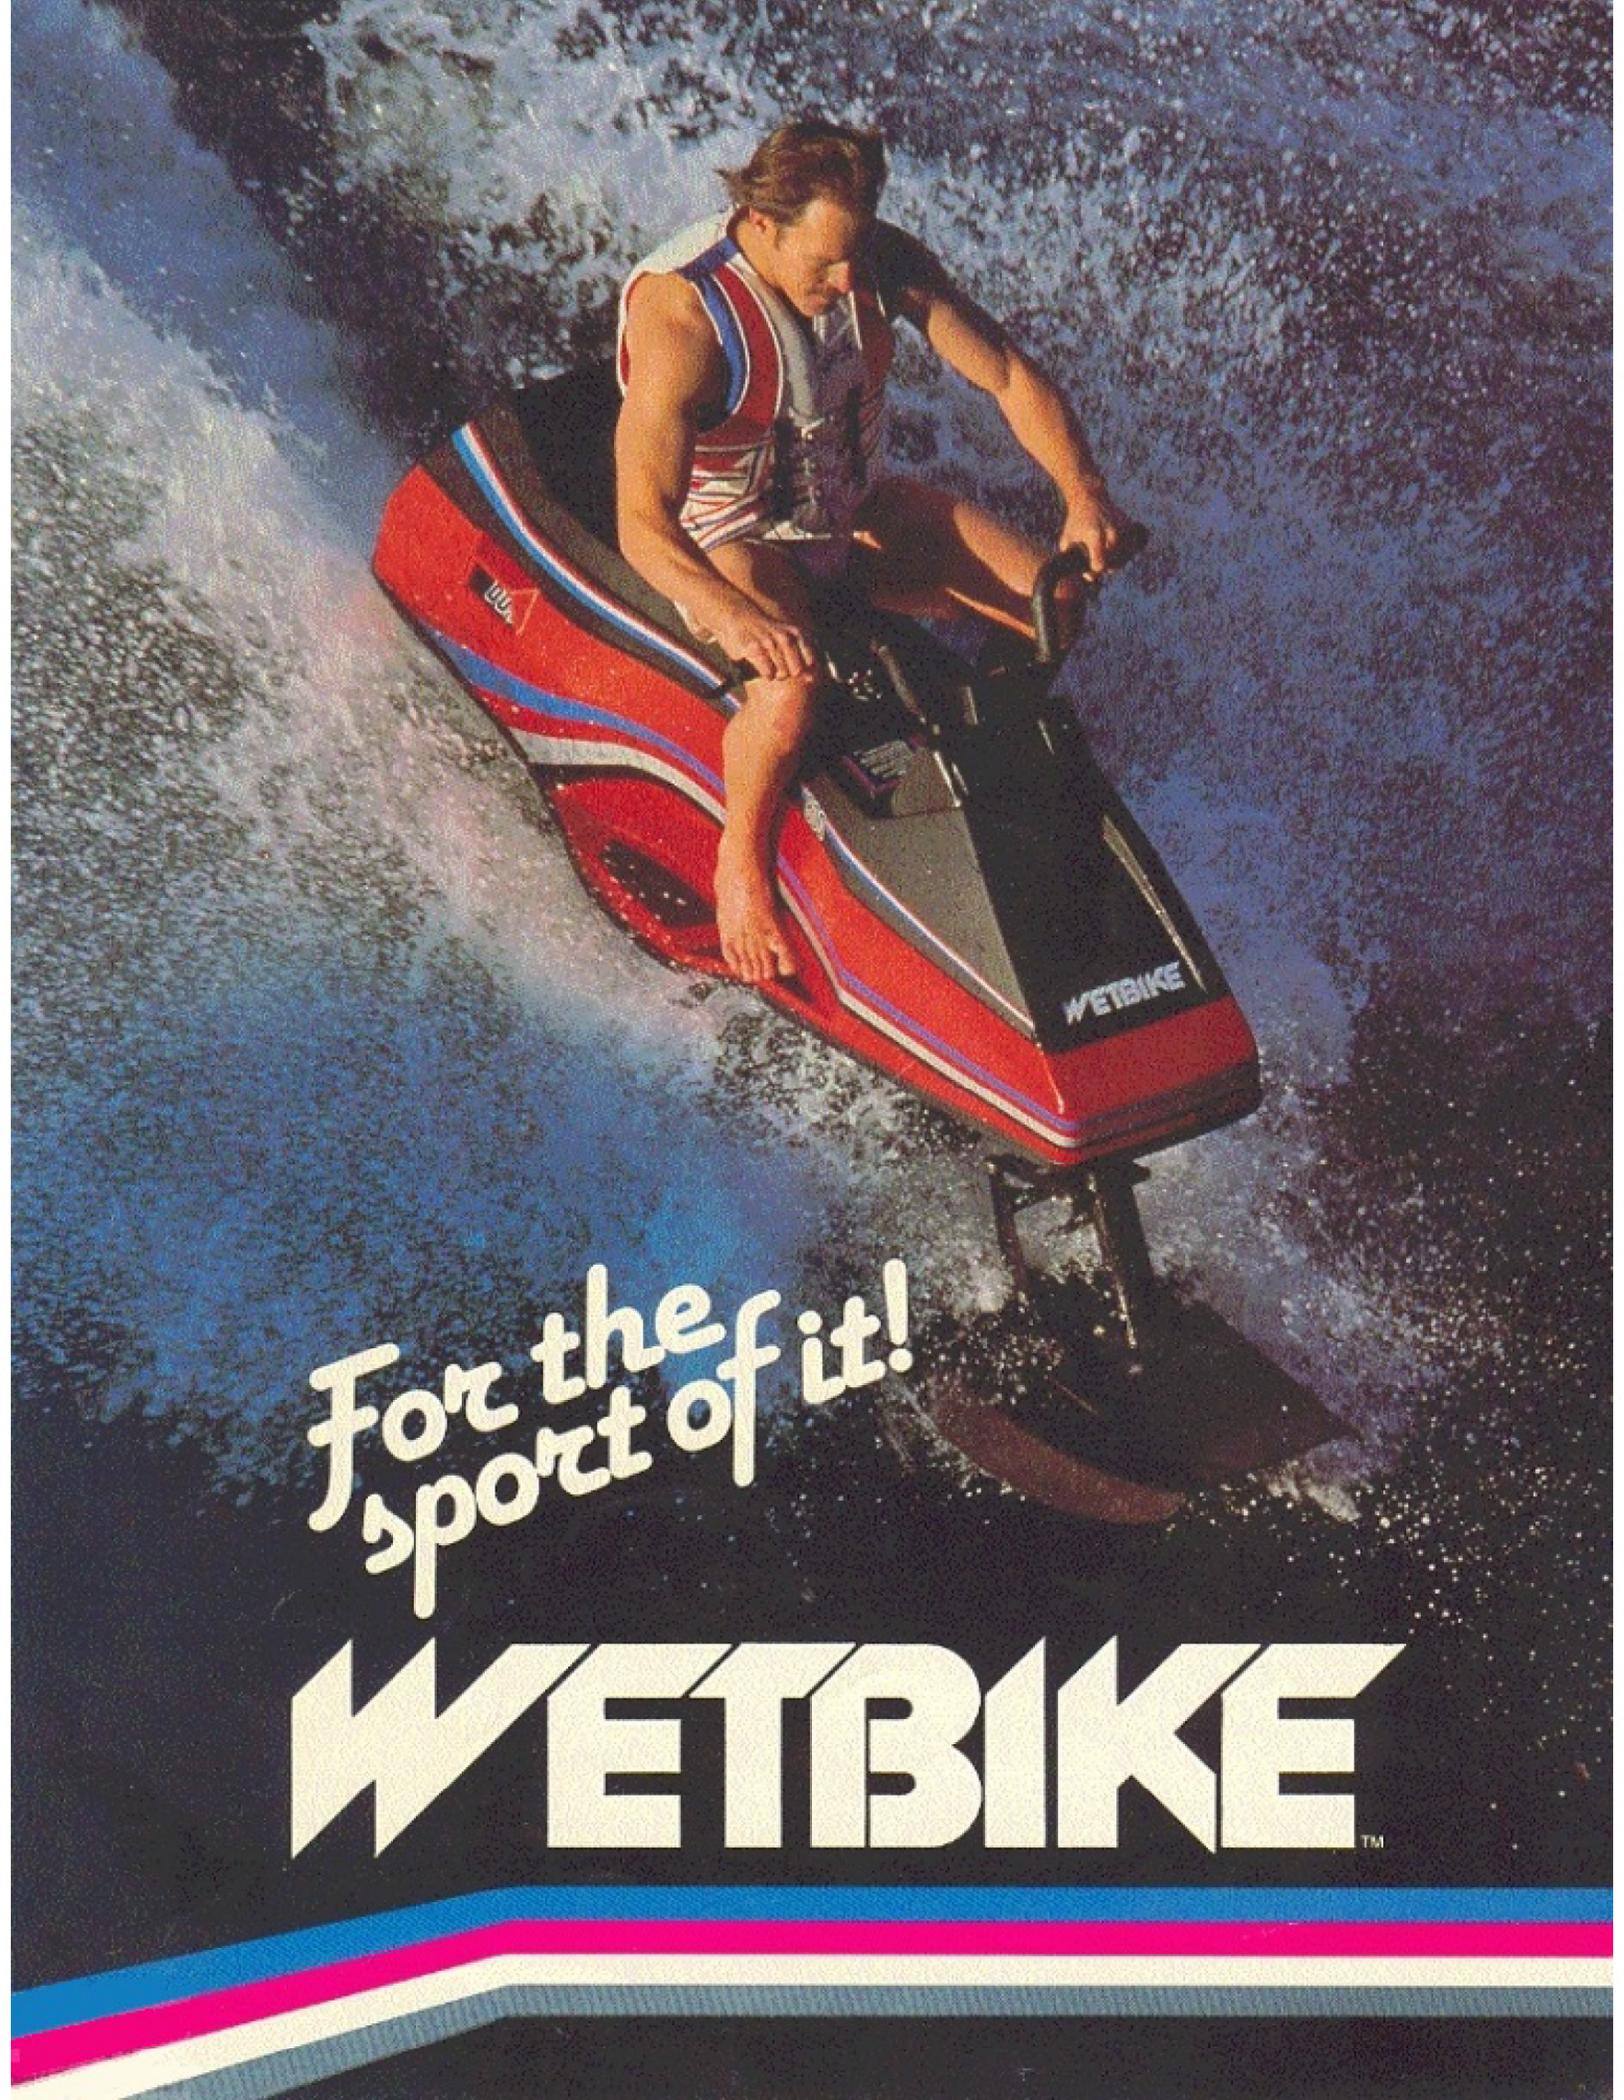

The Wetbike launches anywhere boats can and

wheeled Beach Buddy.

There are also plenty of accessories to add a little something extra to owning a Wetbike.

The ultimate in versatility for family fun. It will add new dimensions to your water

For the
sport of it!

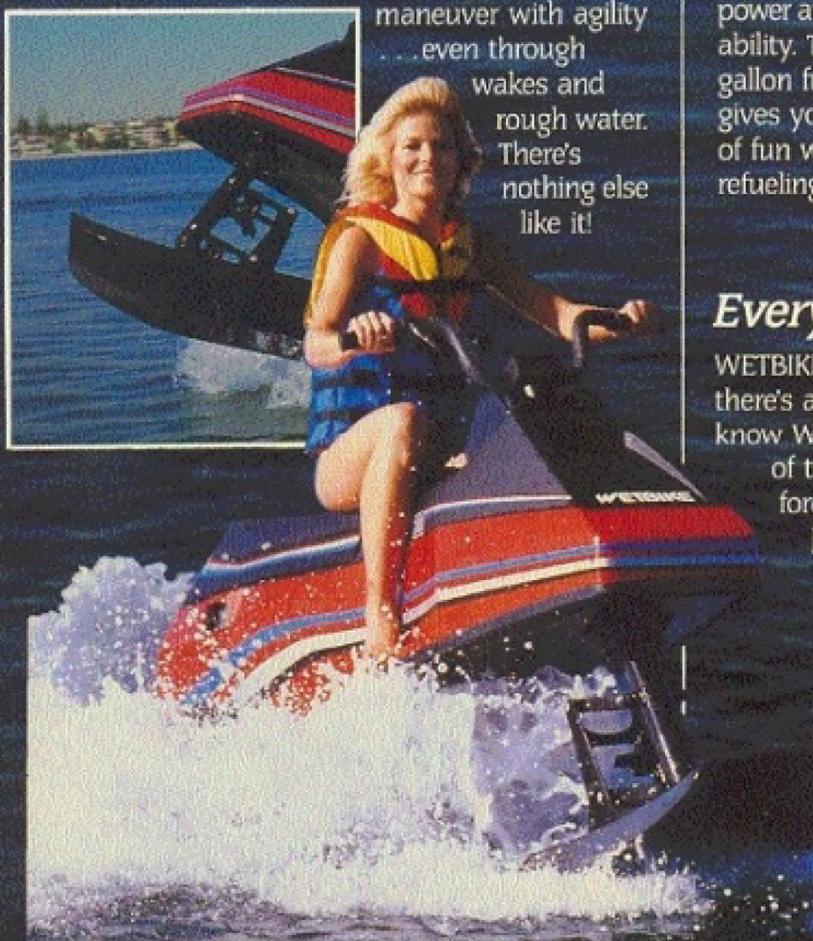

WETBIKE™

Smooth Hydro Link Front Suspension

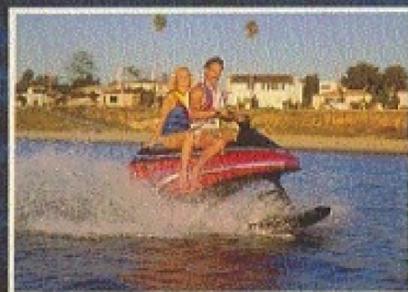

WETBIKE is in a class by itself. It's the *only* water vehicle that steers from the front. . . just like a motorcycle. Enjoy a whole day's fun of smooth WETBIKING. Motocross-style turning and our *exclusive Hydro Link* front suspension allow you to

maneuver with agility even through wakes and rough water. There's nothing else like it!

Loaded with Quality

WETBIKE is engineered down to the fine details. The sleek hull has built-in foot rests and easy mounting handles. An automatic bilge system has a large capacity pump for greater power and dependability. The 9 gallon fuel tank gives you hours of fun without refueling.

Everyone's After WETBIKE!

WETBIKE is the choice of fun seekers everywhere there's a river, lake or ocean to challenge. Racers know WETBIKE blows the competition right out of the water and that's why it's a dominant force at officially sanctioned events. Even James Bond chose WETBIKE for his daredevil antics in *The Spy Who Loved Me*. Get a WETBIKE of your own. . . for the sport of it!

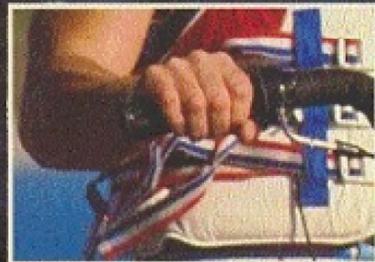

Sheer Suzuki Jet Power

With over 500 lbs. of thrust and 60 h.p. @ 5,000 RPM, it's no wonder competition racers choose WETBIKE. The axial flow, single stage jet pump is driven by a gutsy 798cc Suzuki® two-stroke twin with super-efficient reed valves. Twin Mikuni® carburetors are a reliable source of fully charged power. This awesome engine powers WETBIKE at speeds of up to 35 m.p.h. on a 50-1 gas and oil mix.

Responsive Spring-Loaded Throttle

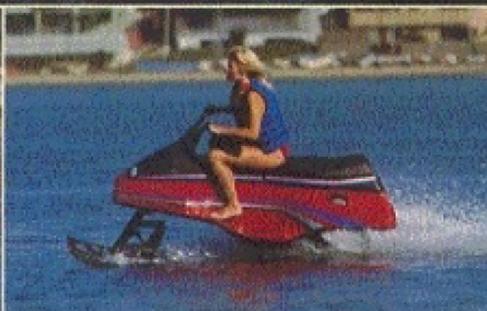

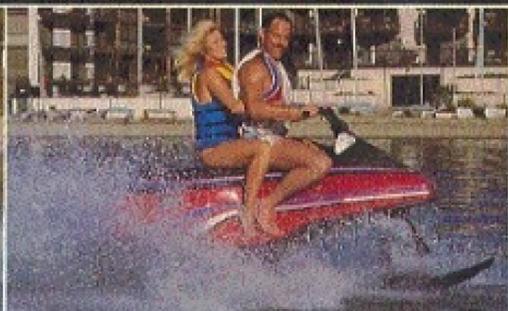

Switch on the waterproof electronic CD ignition and you're ready for split-second response. Turn the throttle slowly and gradually accelerate. Let up and the engine stops. If you spill, the tether safety stop switch (attached to your personal flotation device) automatically shuts off your WETBIKE until you're back on board.

High Performance Design

WETBIKE's swept-back hull and sleek, aerodynamic lines are a perfect combination of beauty and high performance. Measuring 93" long, 25" wide, and 42" high—its compact, molded body design is built to take it! Contoured seat and angled handle bars are built for sporty comfort.

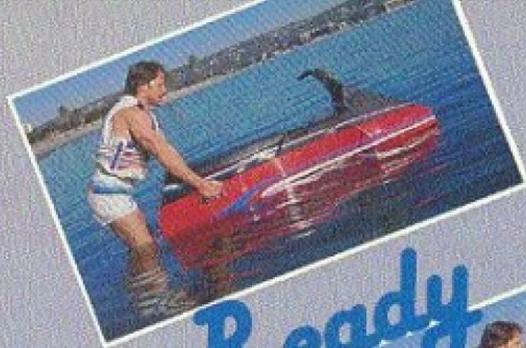

WETBIKE™

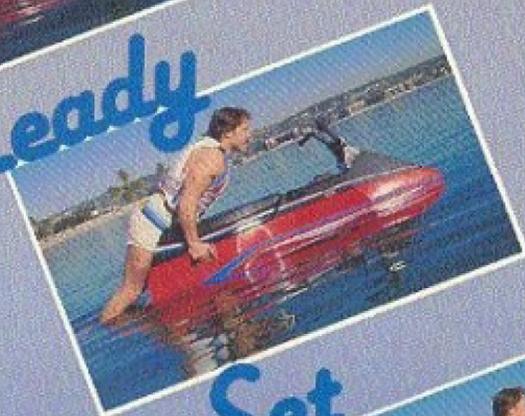

Glide along double or solo riding "flat-out"
...with the performance of a motorcycle.
Jet smoothly through turns that nothing else
on the water can make. ...with ease!
Cruise in comfort for hours to a rendezvous
across the waves. Or even pull a water skier
(where permitted). Experience today's
hottest thrills on the water with *your own*
WETBIKE—for the sport of it!

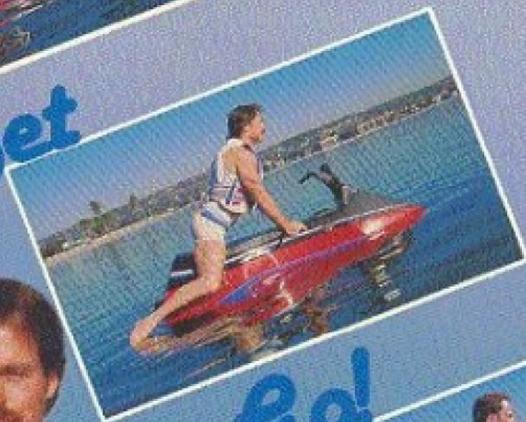

*Bike across
the waves*

JETSTAR

HAVE SKIER, WILL TOW!

Here comes Jetstar for '92, the fastest mini jet boat on the water. The all new three cylinder, 1240cc engine produces 90 horsepower with ease. If your idea of recreation is cruising or skiing, check out this high performance machine.

Jetstar's 12.5' fiberglass hull seats three with ease and trailers behind any compact car. Color coordinated upholstery and carpeting meet high quality marine standards. We've even included an AM/FM stereo/cassette.

Every captain will appreciate the illuminated instrument panel with fuel gauge, speedometer and tachometer. We've also given you big boat features. Notice the built-in ice chest, glove box, bilge pumps, blower and running lights.

You'll find your skiing needs well attended to. Jetstar sports a convenient reversible observer's seat, a built-in ski rope tow and a boarding ladder with swim step.

Built in the USA, Jetstar for '92 is the only fully featured mini jet boat. Your dream come true. □

SEAFASH 1240

Here's the most powerful personal watercraft of its kind. The sturdy new streamlined hull houses a three cylinder 1240cc engine generating over 70 horsepower! Ultra-responsive, yet buoyant and stable, Seaflash suits the whole family.

WETBIKE 1240

Unbelievable! It's the thrill of a motorcycle on water. With the all new three cylinder, 1240cc engine generating over 70 horsepower, Wetbike is easily the fastest, most powerful personal watercraft on the market.
